

BREW :SHED: LIMEKILNS

SANDILANDS

A traditional Scottish pale ale made with Golden Promise and crystal malts with wheat for body. Brewed with traditional British hops - Fuggle, Willamette and East Kent Golding.

RAMSAY LANE

A classic American pale ale made with pale and crystal malts and just one variety of hop: Cascade.

1851

An unexpectedly pale Scottish beer based on a recipe dating from 1851 by Edinburgh brewer William Younger. Originally a table beer or tuppenny ale, it is light and refreshing.

BRUCEHAVEN

Smoked malt and chocolate malt recreate the dark flavour of the classic English porter developed when grains were malted with coal and wood - 6% ABV

THE COCKET HAT

Almost a traditional British pale ale - pale malt, caramalt and munich malt - and classic British hops - Fuggles, and First Gold but with a little citrus note from the late addition of Cascade.

SIMCOE

Brewed in the style of American IPAs using a single hop variety - Simcoe - but with equal emphasis on malts: pale, crystal and toasted flaked barley.

CAIRNS (300ml bottle)

A full strength (6.9%) pale ale made with pilsner malt and large quantities of hops should make this beer bitter but fermenting with Belgian ale yeast gives a spicy, fruity balance.

GELLET ROCK

An American pale ale made with a combination of American hops - Columbus, Ahtanum and Amarillo - with pale and crystal malts, fermented with American ale yeast.
